Channel Separation:	CD, USB Typical 93dB Limit 85dB
THD+N:	CD Typical 0.008% Limit 0.015% USB Typical 0.007% Limit 0.015%
Output:	RCA output, Digital output, Headphone output

Features

1. Two CD/CD-R/CD-RW player, support for CD/MP3 playback

The P60 can read, display and play MP3 files written to CD-Rs, providing DJs with the ability to store music on a single media or for extended playback time. Files can be searched for easily either manually, or by scanning or using file search functions including File search and File/Folder search. Additionally MP3 ID3 tag information can be viewed on the display.

2. Support External USB Device

In this digital era, USB devices have become the most convenient way to store collections of music. P60 supports external USB mass storage devices. Connect an MP3 player, thumb drive, or hard drive for easy access of up to 255 folders, each of which can hold 999 files in MP3/WAV format.

3. Anti-Shock Buffer Memory

Anti-Shock buffer memory prevents skipping and provides continuous playback despite getting bumped or knocked.

4. Fader Start Play

Linked with a compatible mixer, the Fader Start Play function makes the mixer's fader perform back cue and quick start functions.

5. Relay Play

Music can be played alternately from two decks using Relay play. The players can provide automatic, sequential playing tracks one after another from both decks.

6. Key Lock

The Key Lock function locks the pitch of the track even when you adjust the speed of the track. You can speed up or slow down the beat without any noticeable difference in vocal and music pitch.

7. Multi-functional Touch Sensitive Jog Wheel

The high resolution, touch-sensitive Jog Wheel can accurately reproduce hand scratching effects of vinyl records. The Jog Wheel can also perform other vital functions such as pitch bending, scanning, frame searching, parameter control for effects, and pitch/volume control for sampling.

Other Functions

- 19" 2U Rack-mountable (Controller 2U, Player 2U)
- Automatic and manual tap beat counter
- ID3 TAG and CD text support
- Auto cue function
- Single and Continuous play modes
- Auto cue function cues track to start of music
- Seamless loop function / reloop function
- Adjustable pitch range $\pm 4\%$, $\pm 8\%$ and $\pm 16\%$
- Large extra bright display
