Features

1. CD/CD-R/CD-RW music and Mp3/Wav file playback

The P20 can read, display, and play MP3 files written to CD-Rs, providing DJs with the ability to store music on a single media or for extended playback time. Files can be searched for easily either manually or by scanning or using file search functions including File search and File/Folder search. Additionally MP3 ID3 information tags can be viewed on the display.

2. External USB Device Support

In this digital era, USB devices have become the most convenient way to store collections of music. P70 supports external USB mass storage devices. Connect an MP3 player, thumb drive, or hard drive for easy access of up to 255 folders, each of which can hold 999 files in MP3/WAV format.

3. Anti-Shock Buffer Memory

Anti-Shock buffer memory prevents skipping and provides continuous playback despite getting bumped or knocked.

4. VOXOA TUNEBOX Database Software

Download free VOXOA TUNEBOX software to make reading and searching files quicker and easier. The VOXOA TUNEBOX scans all music files in your USB mass storage devices and then creates a database file by which you can quickly locate files in your music library.

5. Key Lock

The Key Lock function locks the pitch of the track even when you adjust the speed of the track. You can speed up or slow down the beat without any noticeable difference in vocal and music pitch.

6. Infrared Ray Remote Control

P20 includes inrared ray remote control function, so you can control the player when you are not in front of the player. The feature adds a lot of convenience helpful for small lounge bars, music restaruants, and other entertainment places.
