Specification

Power: AC100-240V, 50/60Hz
 Power Consumption: 15 W
 Weight: 1.4kg
 Dimension: 296 (W) X 218 (D) X 103.5 (H) mm
 USB Storage Device: MP3, Wav
 Frequency Response: 17~20kHz
 S/N Ratio: 126dB Typical
 Output: RCA, Digital Output, headphone output

Features

1. USB Music Playback

The P50 can read, display and play MP3/WAV files written to USB storage device providing DJs with the ability to store more music on a single media or for extended playback time.

2. A.C.P. Active Cue Point

The Active Cue Point (A.C.P.) is a visual indicator located in the 12 o'clock position of the jog wheel. It helps DJs find the cue point and scratch.

3. MIDI Interface Controller (PC/MAC)

P50 is also designed to interface and control a variety of popular DJ software applications that support USB MIDI interface. The A/B deck switch design allows control of from one to two play decks.

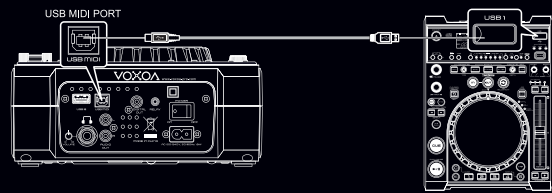

4. Memo Points with 4 Trigger Pads

P50 can help you locate music via four memory points per song. This memory function can be used like a mini sampler for vocal, melody, or beats, adding that touch of creativity to any DJ set.

5. Link Up Two P50s

With VOXOA's new "LINKUP" technology, you can link two P50s via a USB cable to share a single external USB mass storage device from just one player. DJs don't need to have several USB storage devices for different players.

6. VOXOA TUNEBOX database builder software

VOXOA TUNEBOX software makes reading and searching files much quicker and easier. It scans all of music files in your USB mass storage devices and then creates a database file by which you can quickly locate files in your music library.

7. 3 DSP Digital Sound Effects

The P50 supplies with three different types of on-board effects, including ECHO, FLANGER, and FILTER, to enhance creativity in performances. Also, effect parameters Time and Depth can be adjusted independently via the jog wheel.

8. Vinyl Speed Start/Break Adjustment

Two separate control knobs allow you to start and stop the music with the same effects you hear on vinyl -- the sound of the motor picking up speed and the sound of the motor slowing to a stop.

Other Functions

- Cue Play function can back to cue and play instantly
- Auto cue function cues track to start of music
- Seamless loop function / reloop function
- Relay play
- Fader Start
- Auto Loop function with 11 selectable bar lengths
- Pitch range $\pm 6\%$, $\pm 10\%$, $\pm 16\%$ and $\pm 100\%$
- Key Lock
- 3 modes for jog wheel: Normal CDJ, Scratch, Cue Scratch
- Large extra bright display
- Digital S/PDIF output
- Headphone output with volume control
